EU DECLARATION OF CONFORMITY
in accordance with Article 39(1) of EU Regulation 2025/40

As the manufacturer, Inarca S.p.A. hereby declares that, as stated by our suppliers, the packaging and/or packaging components supplied by our company

ARE COMPLIANT

with the requirements of Regulation (EU) 2025/40 – the Packaging and Packaging Waste Regulation (PPWR) – as applicable as at today's date, considering the current stage of implementation and the relevant provisions.

In particular, it is stated that all packages:

- comply with the requirements relating to the restriction of hazardous substances, including the limits for lead, cadmium, mercury and hexavalent chromium as referred in Article 5(4);
- are designed using recyclable materials that allow for the reuse of raw materials and, when they become waste, can be managed through separate collection schemes and dedicated treatment processes;

The technical documentation is kept on file and made available to the relevant authorities on request.
The Declaration of Conformity and the relevant technical documentation shall be retained for at least:

- 5 years from the date of placing on the market for disposable packaging
- 10 years from the date of placing on the market for reusable packaging

The declarant, where applicable in relation to their role in the supply chain, declares that they comply with the obligations laid down by the Extended Producer Responsibility (EPR) scheme applicable to packaging placed on the market, in accordance with current legislation.

The products supplied by Inarca S.p.A. are placed on the market with a specific 'PACKAGING KIT' (an internal code identifying the product's packaging and/or packaging components). The correspondence between the product code and the PACKAGING KIT is available on our website: https://inarca.com/products/, whilst a description of the individual PACKAGING KITS is set out in the table attached to this declaration.
